"To advocate and promote meaningful participation in all aspects of life for Floridians with developmental disabilities"

Your Health Care, Your Choice

Easy to read information about Statewide Medicaid Managed Care

"Your Health Care Your Choice" was written to help you understand a new program in Florida called Statewide Medicaid Managed Care (SMMC). Statewide Medicaid Managed Care is a way to get health care services. It is not the same as Medicaid or iBudget services.

If you are served by the Agency for Persons with Disabilities through the Home and Community Based Services Waiver and the iBudget, you can voluntarily take part in the Managed Medical Assistance program, but you are not required to enroll.

"Your Health Care Your Choice" is part of the Council's work to provide information about choices in all areas of your life.
