SECTION 1:

PROGRAM OVERVIEW FOR RFP # 2011-HC-9004

TITLE: Community Wellness Needs
Assessment

SECTION 1: BACKGROUND, NEED AND PURPOSE, STATEMENT OF WORK, AND REQUIRED PROPOSAL CONTENT

1. Background

The Florida Developmental Disabilities Council, Inc. (FDDC), also known as the "Council", a non-profit corporation organized pursuant Chapter 617, Florida Statutes, was authorized by Section 393.002 Florida Statutes, and Executive Order of the Governor (E.O. 95-478), empowered the Council to act as the "state designated agency" to administer the funds under Part B of the Developmental Disabilities Assistance and Bill of Rights Act (Public Law 106-402).

The administrative service provisions for the Council are found in federal regulations Office of Management and Budget (OMB) Circular A-110 and 45 Code of Federal Regulations (CFR) 74.

The developmental disabilities formula grant funds come from the U.S. Department of Health and Human Services (DHHS) and are administered by the Administration for Children and Families (ACF). Funds are authorized by P.L. 106-402: Developmental Disabilities Assistance and Bill of Rights Act of 2000, and are cited in 42 U.S.C. 6000, et. seq., as amended. Funds are made available to the states to be used for improving the quality, extent, and scope of the broad range of community services needed by persons with developmental disabilities. Priority is given to those persons whose needs are not otherwise met under the Individuals with Disabilities Education Act, the Rehabilitation Act of 1973, or other health, education, or welfare programs.

In accordance with the federal Developmental Disabilities Assistance and Bill of Rights Act, 42 U.S.C. s. 6001(8), developmental disabilities is defined as a severe, chronic disability of an individual which: A) is attributable to mental or physical impairment or combination of mental and physical impairments; B) is manifested before the person turns age twenty-two; C) is likely to continue indefinitely; D) results in substantial functional limitations in three or more of the following areas of major life activity --self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and economic self-sufficiency; and E) reflects the person's need for a combination and sequence of special, interdisciplinary, or generic care, treatment, or other services which are of lifelong or extended duration and are individually planned and coordinated; except that such term, when applied to infants and young children means individuals from birth to age nine, inclusive, who have substantial developmental delay or specific congenital or acquired conditions, may be considered to have a developmental disability described above, if, without services and supports, they have high probability of meeting those criteria later in life.

2. Need and Purpose

The CDC, in the Healthy People 2010 Progress Report, conducted a comparative analysis for behavioral risk factors among people with and without disabilities. The results revealed that people with disabilities are more likely to be obese and engage in exercise (and other healthy behaviors) less frequently than people without disabilities. The report found that 45% of males and 56% of females with developmental disabilities were overweight. These figures are substantially higher than those for the general population and should be of great concern to health care professionals and care-givers.

In general, as a result of a disproportionate number of people with disabilities living near, at or below the poverty level, memberships to fitness and health clubs and other wellness activities are unaffordable and equipment and professional expertise are not readily accessible.

A true understanding of the health and wellness needs of this population, in light of low income and high costs, is poorly understood beyond the medical community. People with disabilities often take many medications to address physical and mental concerns. A number of these medications can contribute to weight gain. A survey by the Kaiser Family Foundation found people with disabilities go without many basic items and activities due to cost. More than a third postpone healthcare, skip medication doses or split pills to save money. Another third reported spending less on basics such as food and heat and forgoing recreational and social activities just to make ends meet.

There is a need to evaluate the health and wellness needs of individuals with developmental disabilities here in Florida to understand what the barriers are to accessing health and wellness services and to determine what solutions could be implemented.

3. Statement of Work

The Council seeks to contract with an entity that will be responsible for working with the Council's Health Care and Prevention Task Force to conduct an assessment to determine the needs of individuals with developmental disabilities as it relates to pursuing health and wellness activities in their communities. The assessment will be administered to individuals with developmental disabilities, caregivers, and service providers. The assessment will measure interest in various health and wellness activities and will identify barriers to accessing health and wellness services. The assessment will be administered via focus groups, during interviews, and online.

The selected provider will:

- Conduct an assessment to determine the needs of individuals with developmental disabilities as it relates to pursuing health and wellness activities in their communities.
- Conduct an assessment to determine the needs of health and wellness entities to support individuals with developmental disabilities to effectively pursue health and wellness activities.
- Conduct research to determine if an appropriate health and wellness assessment tool for individuals with developmental disabilities and health and wellness entities is currently available.
- If an appropriate health and wellness assessment tool for individuals with developmental disabilities is not currently available, the selected provider will develop one.
- Ensure that the assessment identifies the individual's knowledge on the importance of health and wellness activities.
- Ensure that the assessment identifies the individual's interest in various health and wellness activities.
- Ensure that the assessment identifies barriers the individual encounters to accessing health and wellness activities.
- Ensure that the assessment identifies barriers encountered by health and wellness entities in supporting individuals with developmental disabilities.
- Administer the assessment to individuals with developmental disabilities, caregivers and service providers throughout Florida.
- Ensure that an appropriate amount of responses are received from all assessed categories (individuals with developmental disabilities, caregivers, and service providers).
- Ensure that the assessment is distributed to a representative sample and includes urban and rural representation of family, group, and independent living arrangements.
- Utilize focus groups, interviews, and online methods to distribute and gather responses.
- Analyze the results and prepare a final report.

The final report will be provided to FDDC in both hard and electronic formats to include a camera-ready file and a file that can be edited. The final copies should include the FDDC logo and US Department of

Health sponsorship language. The Council estimates that 250 copies of the final report will be printed in English.

This project will also have an advisory committee to include individuals with developmental disabilities, caregivers, and other service professionals.

EVALUATION
AND
AWARD

SECTION 3: PROPOSAL EVALUATION CRITERIA AND SCORING

1. Selection Committee

A Selection Committee of not less than three people will be used to read, evaluate, and rank properly submitted proposals. The Selection Committee will be comprised of members of FDDC and, if necessary, others with pertinent backgrounds.

2. Selection Committee Evaluation

The maximum possible score for any proposal is 100 points. **Proposals that score less than 70 are ineligible for award under this RFP.** While developing the proposal, please refer to the scoring criteria below for assuring completion.

The selection committee will consist of a minimum of three members. Each member will read and score each proposal independently, discuss each proposal jointly, and then submit final results for tabulation. The quantitative score from each member will be averaged and a final score will be assigned to the proposal. Scores will be ranked in numerical order and submitted to the Council's Chief Financial Officer.

The highest ranked proposal will be funded through this RFP. If negotiations with the highest ranked contractor are unsuccessful, the proposal will no longer be considered, and the next highest ranked proposal may be contacted for negotiation. This process will continue until a contract is awarded, or until the selection committee recommends otherwise. All proposals will remain with the Council and will not be returned to the offeror after the RFP process is completed. Scored criteria are grouped into the following categories and weighting:

1.0 Response to Need and Purpose (15 Maximum points)

The proposal contains sufficient information to determine that the offeror understands the need for and purpose of this project.

2.0 Description of Objectives/Services to be Provided (35 Maximum points)

The proposal contains a narrative description of the activities to be performed, including a detailed work plan and sustainability plan, that is adequate and sufficient to accomplish the requirements of the RFP and reflects the values and mission of the Council.

3.0 Description of Staffing (20 Maximum points)

Person(s) engaged to complete the activities of this project are qualified to perform the required duties, including relevant experience in the area of assessment of individuals with developmental disabilities, and are organized to meet the time frames established.

4.0 Description of Project Monitoring and Evaluation (10 Maximum points)

The proposal contains a description of the system used to monitor and evaluate project implementation and effectiveness. The description should include an explanation of how the provider will monitor the progress of the work and accomplishment of the outcomes. How the provider will identify and address any project issues, problems, or concerns, as they emerge. And how the provider will evaluate the effectiveness of the project beginning in year one and subsequent years (should additional years of this project be funded, based on Council approval and availability of funds).

5.0 Budget and Budget Narrative (15 Maximum points)

The proposal includes a proposed line item budget, accompanied by a detailed budget narrative, on a separate sheet of paper. The budget narrative must explain and demonstrate that each entry on the line item budget sheet is allowable, reasonable and necessary. The budget and budget narrative must present a

cost-effective funding level for achieving the purpose of the project.

6.0 References (5 Maximum points)

At a minimum, two references will be contacted to obtain recommendations of the provider's current and/or past performance. For providers who have a history of contracting with FDDC, one of those references will be the FDDC assessment of performance.

TOTAL MAXIMUM POINTS 100

3. Identical Tie Bid

When evaluating proposals, if the Council is confronted with identical pricing or scoring from multiple providers, the Council will invite the proposers with the tie bids to each make an oral presentation. Following the presentation and a question and answer period, the committee will select the proposal deemed in the best interest of the Council.

4. Posting of Proposals Ranking

Ranking of responses to the RFP will be posted at 124 Marriott Drive, Suite 203, Tallahassee, Florida 32301-2981 and on FDDC's website at (fdcc.org) in accordance with the Proposal Schedule of Events and Deadlines listed in Section -4 of this document. The notice will be posted for 72 hours (3 working days).

5. Administrative Pre-Site Visits

The basis for administrative pre-site visits is for FDDC to determine an agency's programmatic and fiscal eligibility for the RFP. An administrative pre-site visit does not guarantee awarding of a contract to an offeror. FDDC reserves the right to conduct an administrative pre-site visit for award determination if an organization meets any of the following criteria:

1. The organization has not previously contracted with FDDC;
2. The organization has contracted with FDDC and has had a corrective action plan; or
3. FDDC has received information that warrants further investigation of that organization.

6. Protests

Any offeror, who desires to protest either the content in this procurement solicitation or the proposed ranking, shall do so in accordance with the Procurement Policy of FDDC. Failure to initiate a protest within the 72 hours after the rankings are posted as prescribed in the Procurement Policy, or failure to post a bond or other security in accordance with that Procurement Policy shall constitute a waiver of proceedings under the Procurement Policy. The Procurement Policy can be obtained by contacting the Chief Financial Officer.

7. Offeror Disqualification

To be disqualified as an offeror under this provision, the offeror must have: (1) had a contract terminated by FDDC for cause; or (2) developed or drafted specifications, requirements, statements of work, invitations for bids and/or requests for proposals contained within this RFP before its publication in the Florida Administrative Weekly and/or the FDDC web site.

8. Post Award & Contract Development

Upon expiration of the Protest Period, FDDC will contact the offeror selected for award to begin contract negotiation. As part of the contract negotiation process, conditions identified by either FDDC staff or the selection team will be addressed. If the offeror has had their financial statements audited, a copy of the most recent audit statement, along with any management letter, will be requested. Additionally, a completed W-9 form will also be requested.
