

Questions Submitted For RFP # 2011-EM-9007 – Employ Me 1st

Questions submitted by Institute for Community Inclusion at University of Massachusetts Boston

1. The RFP indicates that the development of a year 2 project will depend on an evaluation of the work completed in year 1 and availability of funding. Does the Council request that proposals address a year 2 work plan?

Answer:

A year 2 work plan is not required.

2. Could the Council clarify the role of Florida Agency for Persons with Disabilities in implementation of the proposal?

Answer:

It is anticipated that a representative of the Agency of Persons with Disabilities will be on the advisory committee, provide information in the development phase of the project and play a role in the implementation of the project. Their exact participation and level of involvement will be developed over the life of the project. It is a goal of the project to cultivate partnerships among all stakeholders to help secure the implementation of the Employment First Initiative.
