

From The desk of {Peter Allen} candidate for Governor of Florida
Monday 08/09/2010
Reply to Mrs. Hooper
Ref: Peter Allen reply to Questionnaire

Thank you.
Your question asked,
What do you see as the most important issues facing Floridians with Developmental Disabilities and their families?

1. Continued financial support during a State Budget crisis
2. Finding renewable sources of income for these individuals and their families,
3. Try to promote their cause to Florida's corporate partners, for support and hiring
4. Work to find better and more useful ways of educating our Citizens with Developmental Disabilities

Under the by laws of The Independence Party of Florida www.ipfl.org is states,
That we promote the implementation of the ADA to its fullest,

Advance the personal success of people with disabilities through Independent living and an opportunity for gainful employment.

Hello I am Peter Allen

At birth I was gifted with only One Eye, and One Kidney, by no means do I have a disability, however! Because of my gifts I see first hand the needs of those with disabilities, and I see the love and sharing from family members and friends, and I share the understanding of how hard it is to provide for our loved ones,

I like every other Politician have a Special interest,

Mine is our Children and the Elderly,

As Governor of Florida my door will always be open for those who have special needs, And believe me when I say, I will pursue new laws that protect our Children, our Elderly, and our Special needs Citizens in Florida.

Finding new resources is not going to be easy in a bad economy, every State funded organization is looking for money, choosing the right one to help is my top priority

Thank you

Peter Allen
