Updated Budget Conference Information

A major action affecting people with developmental disabilities is the continuation of the appropriations conference process which is scheduled to be over by Monday, April 26.

Issues that are "closed out" (an issue on which both sides agree and which is not expected to come back for debate) include the following:

1. The creation of a Tier 1 cap of \$150,000 with exceptions for individuals that require intensive behavioral services. This cap will primarily impact individuals living at home who require intensive medical services. This was originally a \$120,000 cap.
2. Cap reductions of 2.5% on Tiers 2, 3, and 4. This is down from a 10 % cut proposed by the Senate.
3. An across-the-board 2.5% rate reduction on several services including Adult Day Training and Residential Habilitation Services. This is down from a 10% cut proposed in the Senate.
4. The elimination of behavioral assistant services. There is still an attempt going on to restore the behavioral assistance cut.
5. No cuts to Intermediate Care Facilities for individuals with developmental disabilities.
Originally this was a proposed 7% cut in the Senate.

Medicaid Managed Care

Our calls helped derail the sweeping Medicaid Managed Care proposals! Yesterday, news reports quoted Representative Denise Grimsley as saying that Medicaid Managed Care Reform was dead for this year and Senator JD Alexander was quoted as saying the Governor would probably veto it. However, there was no word about iBudgets which were included in the same package of "bumps" that included Medicaid. This item may be addressed before Senator Alexander and Representative David Rivera complete their work. If not, it will be addressed by the Senate President and the House Speaker.

There is conceptual agreement between the House and Senate that some type of Medicaid reform is needed. Fortunately, they could not agree as to how much and how quickly. The Senate did not appear to have any interest including waivers for people with developmental disabilities in the reform. There is still a strong possibility that Legislators will come back next year with similar proposals. Also, some kind of reform will be approved this year to keep the existing waiver on reform from expiring by keeping the existing pilot counties going and could even expand it into a few other counties.

HB 7223- Medicaid Managed Care by Select Policy Council on Strategic & Economic Planning, Grimsley

Summary

The key features of the bill,([link here](#)) Medicaid managed care include the following:

- All purchased Medicaid services will be under managed care. There will be no exceptions or "carve outs".

- For people with developmental disabilities, this includes all Waiver services, all private Intermediate Care Facilities for the Developmentally Disabled (ICF/DD) services and all basic health care services.

- The only services not subject to managed care will be those provided at state run institutions.

- The effective date for HMOs or PSNs to begin delivering services to people with developmental disabilities is 2015.

- The state will be divided into six areas with at least two HMOs and one PSN managing services in each area.

- The tier system is continued except that a fifth level is added for services provided by private ICF/DDs.

- The managed care entity is expected to save 8% of the current cost of care with a preferred savings of 15%.

- The savings will be used to pay for the administrative costs (overhead and profits) of the HMO or PSN.
- No additional funds can be expected to offset their costs and the waiting list will not be initially addressed.

The Agency for Persons with Disabilities (APD) functions would be limited to managing the two remaining state institutions, the forensic programs and a small general revenue program. Case management would be provided by the HMO or PSN and independent support coordination would be eliminated.

The Senate has a Medicaid Reform Expansion bill [SB 1484](#) that expands the Medicaid Reform Pilots into 19 counties that have two or more HMO's and that have the capacity for more patients. The bills are being negotiated between the House and the Senate. The Governor and the Senate President have publicly expressed concerns with the House proposal.

Linked Bills

HB 7225

- Relating to Medicaid by Select Policy Council on Strategic & Economic Planning
04/19/10 SENATE In Messages

The Florida Developmental Disabilities Council will be working with the [Senate President Atwater](#) and the [Speaker of the House Cretul](#).

Our message will be to develop a plan and specialty networks for individuals with developmental disabilities for basic health care needs and pilot the plan in the existing pilot counties.

Also we are advocating that the Agency for Persons with Disabilities and the Individual Budget(IBudget) system be used to manage the care provided by the Developmental Disabilities Home and Community Based Waiver.

Please call your legislators and let your opinion be heard!

HB 1073 Relating to Education of Children with Disabilities by Llorente

Summary

This bill is now combined with a revised version of HB 81(see below). The new bill version requires minimum training for child care personnel to include the identification and care of children with developmental disabilities. The bill provides requirements for use, monitoring, and reduction of unnecessary seclusion and restraint on students with disabilities. The bill keeps all parental notification and data reporting requirements. Many advocates are disappointed that all references about when to use restraint and seclusion have been omitted. However there is a section on fire safety provisions for seclusion rooms, and the prohibition of restraints that block airways. The bill also

requires regional autism centers to provide certain support services for serving children with developmental disabilities. And finally, the bill requires the Department of Education to incorporate course curricula relating to developmental disabilities into existing requirements for continuing education or in-service training of instructional personnel.

Effective Date: July 1, 2010

04/21/10 HOUSE Placed on Special Order Calendar for 04/23/10

04/23/10 HOUSE Read Second Time; Amendment Adopted (955299)

HOUSE Engrossed Text (E1) Filed

HB 81 - Relating to Use, Prevention, and Reduction of Seclusion and Restraint on Students with Disabilities in Public Schools

by Hukill Cosponsors: Anderson, Brandenburg, Burgin, Flores, Fresen, Glorioso, Gonzalez, Heller, Hudson, Jenne, Kiar, Llorente, McBurney, Nehr, Pafford, Planas, Porth, Precourt, Sachs, Schenck, Schultz, Schwartz, Skidmore, Soto, Stargel, Steinberg, Tobia, Williams (T), Zapata

Summary

During the PreK-12 Policy Committee on March 25th, HB 81 passed! This marked the first time a bill on guidelines for Restraint and Seclusion had passed a committee. A House Proposed Committee Substitute (PCS) combined this bill with HB 1073(see next bill below). The original bill was laid on Table so from now on we will refer to the combined HB 1073.

SB 1166 - Relating to Community Residential Homes by Altman

Co-Sponsors: Storms

Summary

SB 1166 on "planned residential communities" was passed by the Senate after a "sober homes" amendment was stripped from the bill. Its companion, HB 645C2, emerged from the re-referencing process with the final council reference being removed. It is now ready for second reading in the House. This bill prohibits rules adopted by the Agency for Persons with Disabilities from restricting the number of facilities designated as community residential homes located within a planned residential community. The bill also defines the term "planned residential community" and provides that community residential homes located within a planned residential community may be contiguous to one another and exempt from the 1000 foot rule. The 1000 foot rule states that group homes that have six beds or less may not be within 1000 feet of each

other. The Council can not support this bill as written. There are characteristics or licensure requirements that need to be in place to offer individuals with developmental disabilities their right to the least restrictive environment. [Council Position](#)

SB 2038 - Relating to Medicaid Buy-in Program/Persons with Disabilities by Crist
Summary

The bill provided for Medicaid eligibility for certain persons with disabilities under a Medicaid buy-in program, subject to specific federal authorization. The proposed Work Incentive Medicaid Coverage program would continue to offer Medicaid coverage to people with disabilities who are working. Once they enrolled in the program they would have the opportunity to earn more and save more than the allowable limits for regular Medicaid and still retain their health care coverage through the State's Medicaid Program. The bill requires the Department of children and family services to adopt rules for determining eligibility. The bill also directs the Department of health to perform all disability determinations. Finally, the bill requires the Agency for Healthcare Administration to seek amendments to specified Medicaid waivers for certain persons with disabilities. The Council supports this legislation. SB 0214-Relating to Autism by Ring

Summary

This bill requires a physician to refer a minor whose parent suspects the minor has an autism spectrum disorder, cerebral palsy, or Downs syndrome to an appropriate specialist for screening, evaluation, or diagnosis. The bill requires health insurers and health maintenance organizations to provide direct access to an appropriate specialist for a diagnosis. The terms "direct access" and "appropriate specialist" are defined in the bill. The bill mandates health insurance policies and health maintenance organization contracts to provide at least three visits per policy year for the screening, evaluation, or diagnosis of autism spectrum disorder, cerebral palsy, or Downs's syndrome.

SB 2192-Relating to Prepaid Developmental Disabilities Savings Program Peaden, Jr.

Summary

This bill provides for administration and management of the savings program by the Florida Prepaid College Board in conjunction with the Stanley G. Tate Florida Prepaid College Program. The bill provides that the prepaid contract fund and the investment fund shall consist of certain moneys. The bill creates the Prepaid Services for Parents of Children with Developmental Disabilities Study Group.

Effect of Proposed Changes: The Savings Program provides that the legislature intends:

·The creation of such a program can offer accessibility to services regardless of a family's income, insurance or Medicaid eligibility.

·A program consisting of a prepaid contract plan and an investment plan will allow for advance payment of or saving for the costs

associated with developmentally disabled children as they age out of the education system.

·The prepaid contract plan is to be interchangeable with an advance payment plan of the Stanley G. Tate Florida Prepaid College

Program.

·The investment plan is to be a supplement or alternative to the prepaid contract plan, which will allow funds to be placed in trust

to meet future needs.

·The program is to be conducted to maximize program efficiency and effectiveness.
