Group Discussion

- Discuss benefits of the exercise
- Where would you use this technique?
- Reasons why?
Question Builder – Web Tour

Question Builder

Be prepared for your next medical appointment. Create a list of questions that you can take with you whether you are getting a checkup, talking about a problem or health condition, getting a prescription, or discussing a medical test or surgery. Whatever the reason for your visit, it is important to be prepared. With the Question Builder, it is easy.

Step 1: Choose the kind of appointment you need

Ask Me 3 Handouts + Discussion

Three Questions to Always Ask

1. What is my main problem?
2. What do I need to do?
3. Why is it important for me to do this?
Pair Share

• Pick a partner
• Pick a case study card
• Pick a part – Doctor or Patient
• Use *Ask Me 3*
• Share your experience
Role of Aides at Medical Appointments
There are many types of questions:
- Factual
- Interpretative
- Evaluative

Be prepared—bring your question list and use key words.

The probing (asking questions)/follow-up questioning technique helps to better understand your health information.

AskMe3 is a tool to better understand what you need to know about your health.

**How to use the KWL Chart:** The first two columns are filled in at the beginning of a unit to find out what learners already know about a topic, and what they want to know. The last column is filled in at the end of a unit. It can be used to identify mastery of a topic at a wide range of individual skill and ability levels.
“Ask”

Ask Your Doctor the Questions You have about Your Health

Practice at Home:

1. Think of three questions that you would like to ask the doctor the next time you visit him/her. Write, record, or ask someone to help you write down the questions.

2. Use AskMe 3. Cut out a picture, draw a picture or use a recorder to describe one of the three AskMe 3 questions.
