

## CAPITOL UPDATE

March 10, 2025

---

## March 10, 2025 - Volume 25, Issue 3

### Our Care Matters

March is Disability Awareness Month, and the Florida Developmental Disabilities Council (FDDC) is hosting Developmental Disabilities Awareness Day on March 11, 2025!

Check out our Advocacy Tool Kit [here](#).

The FDDC has the primary mission of increasing the capacity of individuals with intellectual and developmental disabilities (I/DD) to participate in their communities. Our Council members are appointed by the Governor, and they oversee the implementation of the Council's 5-Year State Plan and our legislative platform.

This year, the FDDC built our legislative platform around our powerful video series, *Our Care Matters*, which provides real stories that deepen understanding and empathy towards the challenges faced by people with I/DD and their families to encourage meaningful change. **Sharing your stories with legislators and other influencers is one way to educate them about the importance of supporting people with I/DD and their families.**

The Council's three central priorities for this year's platform emerged from national and statewide data for the State Plan, which includes input from

people with I/DD, their families, and the people who support them.

### Access to Services

The Council wants to connect Florida’s individuals with I/DD and their families to services and resources. FDDC is dedicated to addressing the confusion created by multiple existing information and resource platforms and directories.

### Home- and Community-Based Services Delivery System

Medicaid home- and community-based services allow individuals with I/DD and their families to receive the resources and support needed to live outside of an institution and in a community setting of their choice.

As an individual’s needs change over time, understanding living options is critical to ensure that the most appropriate living environment is chosen.

### Aging Caregivers

A large percentage of people aging with I/DD in Florida live at home with family members, who are also aging. Compared to other states, Florida has the highest percentage of people on a waiting list for Medicaid home- and community-based waiver services.

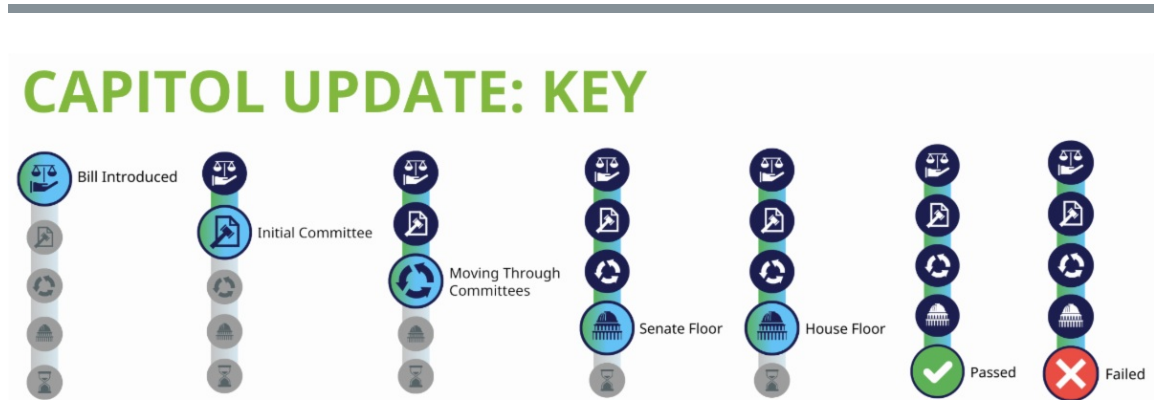

Caring for a person at home impacts the entire family. Aging caregivers, an aging population of adults with I/DD, and a significant shortfall of long-term care funding, both individually and collectively, are of imminent concern for individuals with I/DD and family caregivers.

*Below are bills the Council supports or tracks. Keep in mind that bills usually must pass through three or four committees before getting to the full House or Senate chambers. Once in a chamber, bills are read three times before final passage and then sent to the other chamber for acceptance to end up with one bill to send to the Governor.*

*When the Governor receives a bill, he can sign it, let it become law without his signature, or veto the bill. The Legislature can overturn a veto the next time they meet by two-thirds vote of both chambers.*

**Please click on bill links to track a bill’s full journey through the legislative process.**

## Important Bills to Watch

Bill Introduced

### [SB 460-Student Elopement by Arrington](#)

#### **Summary of Original Filed Text - 02/03/25**

The bill would create a framework for addressing student elopement in Florida public schools by establishing various requirements for planning and response.

The bill defines "elopement" as the act of a student with disabilities leaving supervision and mandates each public school to set up a School Staff Assistance for Emergencies (SAFE) team and a comprehensive elopement plan.

The bill specifies that the school principal and assistant principal, along with at least five other appointed members, will constitute the SAFE team. This team is responsible for developing, updating, and enacting the elopement plan.

The elopement plan would include detailed procedures for immediate actions following an elopement, a structured search plan including a search grid of critical areas, and a communication strategy among all school personnel, security, and law enforcement.

There is directive language that the elopement plan be submitted annually to the district school board and authorizes the State Board of Education to adopt rules to implement the provisions effectively.

### [HB 0345 Student Elopement by Eskamani](#)

---

### [SB 112-Children with Developmental Disabilities by Harrell](#)

#### **Summary of Original Filed Text - 02/05/25**

This bill expands the scope and services of healthcare and educational programs for children with developmental disabilities in Florida.

It amends the Cinotti Health Care Screening and Services Grant Program to include autism under eligible services and it creates the Early Steps Extended Option, extending eligibility for existing early intervention services until a child's fourth birthday.

Moving Through Committees

The bill mandates local program offices to prepare for children's transitions out of the Early Steps Program.

This bill establishes guidelines and funding priorities for startup grants managed by the University of Florida Center for Autism and Neurodevelopment aimed at supporting schools and summer programs for children with autism. It directs the Commissioner of Education to review and report on educational curricula for developmental disabilities, enhancing training for professionals with a focus on supporting students with autism.

### **Identical Bill**

[HB 0591 Children with Developmental Disabilities by Maggard](#)

Bill Introduced

[HB 377-Health Insurance Coverage for Individuals with Developmental Disabilities by Tant](#)

**Summary of Original Filed Text - 02/04/25**

The bill revises definitions related to health insurance coverage for individuals with developmental disabilities, impacting Medicaid options and law enforcement training. It updates the definition of "autism spectrum disorder" to match the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders by the American Psychiatric Association.

The bill changes the definition of "eligible individual" to expand criteria beyond age restrictions, focusing on the diagnosis of a developmental disability without specifying the age at diagnosis.

The bill reenacts specific statutes to adapt to the updated definitions impacting optional Medicaid services and law enforcement training regarding autism spectrum disorder and retains clauses regarding the adjustment of services based on budgetary constraints and the need for legislative approval for the implementation of new Medicaid services.

### **Identical Bill - Moving Through Committees**

[SB 0756 Health Insurance Coverage for Individuals with Developmental Disabilities by Burton](#)

[HB 447 - Disability History and Awareness Instruction by Salzman](#)

**Summary of Original Filed Text - 02/06/25**

Bill Introduced

This bill mandates comprehensive disability history and awareness instruction in schools, replacing prior optional guidelines with required educational content.

The bill designates the act as the "Evin B. Hartsell Act." It requires that for a two-week period, students receive intensive instruction on individuals with disabilities, including disability history and the disability rights movement. The instructional content across educational levels includes:

- Grades K-3: Conversations on bullying and activities teaching about physical disabilities.
- Grades 4-6: Provides information and activities related to autism spectrum disorder.
- Grades 7-9: Includes content and activities about hearing impairments.
- Grades 10-12: Focuses on different types of learning and intellectual disabilities, with practical activities to illustrate these conditions.

The bill allows district school boards to collaborate with the Evin B. Hartsell Foundation for curriculum development.

[SB 0540 Disability History and Awareness Instruction by Collins](#)

Bill Introduced

### [HB 413 - Swimming Safety by Gossett-Seidman](#)

#### Summary of Original Filed Text - 02/05/25

This bill enhances water safety requirements and regulations for children, particularly those with autism, at public swimming areas and prohibits organizations from allowing children access to public bathing places or pools without swimming proficiency verification from a parent or legal guardian.

The bill requires organizations to provide U.S. Coast Guard-approved personal flotation devices (for public bathing places and pools) to children identified as non-swimmers or at-risk and allows organizations to refuse water access to children without the required documentation

and penalizes organizations for non-compliance by allowing disciplinary actions, including administrative penalties.

This bill includes changes to the "Residential Swimming Pool Safety Act," now part of a broader "Swimming Pool and Public Water Safety Act," reinforcing safety barriers and pool standards.

Moving Through Committees

**[SB 102 - Exceptional Student Education by Gaetz](#)**

**Summary of Original Filed Text - 12/17/24**

A bill mandates the development and implementation of a workforce credential program for students with autism spectrum disorder by the Department of Education. It mandates the Department of Education to develop and implement a workforce credential program by January 31, 2026, specifically designed for students with autism spectrum disorder to aid in securing employment upon graduation.

Requires the program to allow students to earn badges that demonstrate the acquisition of skills needed by employers, with each badge

representing five discrete skills, including workplace safety.

Specifies that the validation of each badge must be done by two members of the instructional staff who specialize in exceptional student education.

SB 102 directs the Department of Education to produce an annual report from 2026 through 2030, which includes details on the badges offered, data on post-graduation employment, student participation rates, and other relevant outcome data.

**Similar Bill**

**[HB 0127 Exceptional Student Education by Kendall](#)**

Bill Introduced

**[SB 1156 - Home Health Aide for Medically Fragile Children Program by Harrell](#)**

**Summary of Original Filed Text - 02/25/25**

This bill revises training and operational requirements for the Home Health Aide for Medically Fragile Children Program to improve care and coordination.

The bill specifies family caregiver training to include minimum hours of theoretical instruction, skills tailored to the child's care needs and directed clinical training. It also establishes a Medicaid fee schedule for home health aides at a minimum rate of \$25 per hour with a daily cap of 12 hours per child, requiring justification for additional hours.

The bill mandates a swift federal approval

process for Medicaid waivers or amendments to include private duty nursing and home health providers in the program and exempt home health aide income from public assistance eligibility considerations.

Lastly, the bill requires an annual program assessment detailing caregiver satisfaction, support needs, hospitalization rates, adverse incidents, and comparison data between home health aides and registered or licensed nurses.

### [SB 412 - Repair of Motorized Wheelchairs by Smith \(C\)](#)

**Summary of Original Filed Text - 01/30/25**

This bill establishes requirements for the availability of motorized wheelchair repair resources under the "Motorized Wheelchair Right to Repair Act."

The bill mandates that original equipment manufacturers (OEMs) provide documentation, parts, and tools necessary for diagnosing, maintaining, or repairing motorized wheelchairs, including updates, on fair and reasonable terms.

The purpose of the bill is to offer more options for wheelchair repair and the bill stipulates that any contractual provisions attempting to waive or limit OEM obligations under this act are void and enforces violations of these provisions under the Florida Deceptive and Unfair Trade Practices Act.

### Similar Bills

[HB 0311 Repair of Motorized Wheelchairs by Eskamani](#)

---

### [SB 1050 - Agency for Persons with Disabilities by Bradley](#)

**Summary of Original Filed Text - 02/24/25**

This bill proposes the transfer of Vocational Rehabilitation, the Federal Rehabilitation Trust Fund, and Blind Services from the Department of Education to the Agency for Persons with Disabilities (APD) with the intention of enhancing services for those with disabilities. At first glance this merger could mean better collaboration for individuals with developmental disabilities who

need help with job training and finding a job.

Bill Introduced

The bill would change Chapter 393 F. S., which is currently exclusive to those with developmental disabilities to "Persons with Disabilities." This change would include individuals with all disabilities in the statute dedicated to those with developmental disabilities. This broadening terminology underlines concerns that this will divert attention and resources from programs specifically designed for developmental disabilities.

There are orders for the establishment of a transition advisory working group, with designated transition coordinators from both the APD and the Department of Education to ensure smooth operational transition. There seems to

be no mention of individuals with disabilities, stakeholder groups and families having representation on the transition and implementation planning groups.

Finally, both Vocational Rehabilitation and APD are struggling to serve clients. Advocates report that both agencies have long wait times and a shortage of providers. This may not be the best time to merge these agencies together. There are 34 other states that have combined their developmental disability agency with Vocational Rehabilitation. The Florida Developmental Disabilities Council is still trying to understand the impact this new combination will have on individuals with developmental disabilities in Florida.
