

Talking Points: Currently Pre-enrolled (Waitlist)

I am one of the nearly 21,000 Floridians living with I/DD who is eligible to receive essential supports and services through the Agency for Persons with Disabilities (APD) iBudget and Consumer Directed Care programs (CDC+).

I wanted to be on the pre-enrollment list so that I would have access to the APD iBudget and/or CDC+.

I want supports and services that provide steady, reliable options that help me live, work, and take part in everyday life.

CDC+ will let me choose my services, my providers, and how my cost plan is used.

Managed care programs do not give me the same level of choice.

I have worked with my providers for a long time and want to keep them. Although there is continuity of care provisions in managed care contracts it does not guarantee that my existing providers can continue to provide service.

Please preserve my ability to choose between iBudget, CDC+ and the managed care program. I do not want managed care to become the only option if APD services decline or are eliminated.

My Personal Story

My name is _____

I live at _____
(Street address, City, County)

I am a _____
(Person with an intellectual/developmental disability or Caregiver/Family Member)

My state representatives are _____

I am currently on the pre-enrollment list.

I am hoping for these services because:
